Debt-to-Equity	0.95x	0.77x

Management Commentary

Fiscal year 2025 was a year of accelerated growth for Nova Horizon Inc., with total revenue increasing 22.0% year-over-year to \$96.5 million, driven primarily by expansion in our core subscription offerings and strong renewal rates among enterprise customers. Net profit grew even faster, up 32.8% to \$18.2 million, reflecting improved operating leverage as gross margin expanded by 1.9 percentage points to 61.4%. We continued to invest meaningfully in research and development while maintaining discipline in general and administrative spending. Looking ahead, management remains focused on sustaining durable, profitable growth while prudently managing the balance sheet.
